

Ultrasonic Thickness Gauge NOVOTEST UT-1M-IP

With dust and moister protection up to IP67

	 Wide range of testing. Thickness measurement range (0,8 – 		
	1000mm)		
	 The device stores all the settings that were set before switching off 		
	 Customer gain control 		
	 Possibility to make V-correction of the transducer 		
	 Convenience and easy in operation 		
	 Preset velocity of ultrasound (1000 – 9999m/s) 		
	 Compensation of probe delay 		
	 Acoustic contact indication on the graphic display 		
	Fixation of the last measurement result in the removal of the transducer		
	surface		
	 Power supplied by standard AA batteries 		
	• Unique protection from dust and moisture, previously not available		
	in the market of ultrasonic thickness gauges of general purpose. By		
	default the device comes with a degree of dust-moisture protection		
	IP65. Available version up to IP67 (submerged in water)		
	 Unprecedented autonomy of the device – increased up to 200 hours 		
	continuous operation time of the thickness gauge		
	Special rubber lining on the side surfaces of the casing facilitates the		
	convenient retention of the thickness gauge in the user's hand;		
	 Device has light weight and dimensions, in comparison with similar 		
	protected thickness gauges		
	 Saved data can be transmit to PC 		
Advantages	 Material selection and automatic setting of ultrasound velocity 		
	 Large graphic display of high contrast and backlight 		
	Display of measured thickness in mm and inches		
	Convenient menu in the device		
	 Wide choice of UT probes with preset settings in the device 		
	 Modes of statistical processing of measurements 		
	 Ability to restore factory calibrations 		
	Ability to adjust all parameters of the acoustic path		
	 Ability of further adjusting the user gain directly from the measurement 		
	mode		
	 Mode of audible and visual alarm when leaving the established ranges 		

R

Standard set	 Electronic unit Ultrasonic Thickness Gauge Transducer (probe) – 1 pc (depends on the desired range of controlled thickness) 3 AA batteries Charger Cables Calibration certificate Operating manual Case

Available options	 Couplant <u>UT-probes</u> <u>Calibration blocks</u> 		
Warranty	Standard 3-year warranty. Extended warranty up to 5 years is also available		
Payment	100% in advance, TT / WU, PayPal, Credit card		
Delivery	CIP, FCA etc. DHL, TNT, FedEx, UPS etc. Shipment - within 1 week		
Discounts	Up to 36% for dealers		

Company info:

Our company **NOVOTEST** designs and manufactures instruments for NON-DESTRUCTIVE QUALITY TESTING. We are located in Ukraine, 5 Spasskaya str., Novomoskovsk.

NOVOTEST produces instruments for measuring a wide range of parameters and quality control for the majority of products:

- metal <u>hardness</u> of various types;
- coatings thickness;
- ultrasonic <u>flaw detectors;</u>
- ultrasonic thickness gauges;
- instruments for <u>magnetic testing;</u>
- <u>construction materials</u> quality monitoring instruments;
- environmental control equipment and many other devices.

Our benefits:

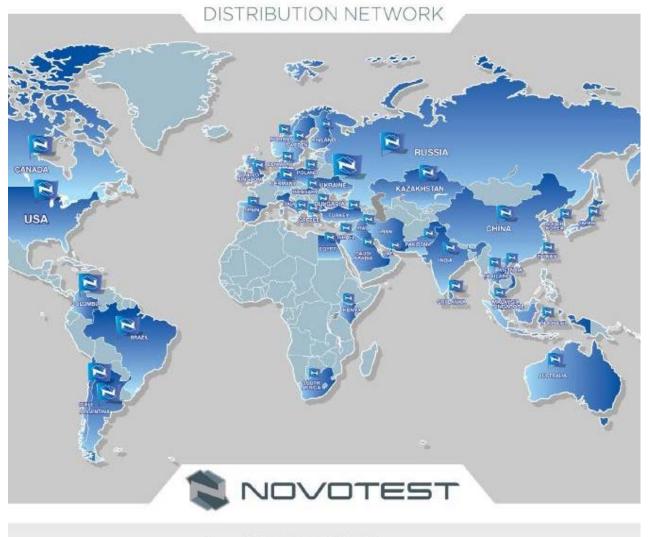

- More than 10 years on NDT market;
- Leading manufacturer of NDT devices in Ukraine;
- Representative offices in more than 30 countries around the world;

• All our devices are covered by standard 3-year warranty. Extended warranty up to 5 years is also available;

- Powerful development center;
- Constant expansion of the product range;
- Manufacturing customized NDT systems;
- Solutions for non-standard NDT tasks;
- After-sales service and technical support;
- Individual approach for cooperation with dealers.

For any information, please feel free to contact us!

We will be glad to answer for any questions!
